**GIVERS**

"Peace and poverty are deeply intertwined. Let us join hands and work towards a future where justice, equality, and human rights prevail, ensuring that poverty is eradicated. By addressing the root causes of poverty and promoting social inclusion, we can create a more equitable and peaceful world. Education and empowerment play pivotal roles in this process, equipping individuals with the tools to break free from poverty and actively participate in decision-making. Together, we can build a society where peace and prosperity coexist, bringing stability, security, and economic growth to all."
